

Gabriel Taveras

• 5025 Kingsbridge Pass • Powder Springs, GA 30127 • 404-360-8881 • gtaveras026@gmail.com • error-fox.github.io/portfolio/

Core Competencies

- C# • C++ • Java • Unity • Python • SQL • Godot • Roblox Development • Lua • “Back-end” development • Generative AI
- Machine Learning Development as per class

Work Experience

Gaming Coach | Code Wiz Mableton

July 2024 – May 2026

- Introduce coding practices and concepts to students using the medium of Minecraft modding
- Guide students in creating and testing their own games in Roblox
- Instruct students in Unity C# game development and real-world best practices
- Volunteers for outreach assignments to attract additional students

Donor Specialist | Goodwill of North Georgia

May 2023 – Feb 2024

- Processed donations through interfacing customers
- Organized donations into various categories that ensured efficient distribution
- Distributed donations to other locations via regular trucks

Intern Roblox Developer | Fanaticus XR

Aug 2021 – Nov 2021

- Developed an experimental game in Roblox that provided a proof of concept for future endeavors
- Learned professional development practices and methodologies to ensure proper career growth
- Presented final project to superiors via a live demonstration

Project Experience

Prosocial Cyberball Game | Dr. Thomas Joiner

Jan 2026 – May 2026

- Collaborate with Dr. Joiner and his student to revamp an existing project
- Modify logic of AI-controlled players to better examine player reactions

Paralelectrical

Aug 2025 – May 2026

- Design and implement back-end systems, weapons and items to use in-game
- Communicate with partners to ensure progress and efficient collaboration
- Demonstrate progress in bi-weekly updates using voiceover screen recording

Chromatose

Aug 2024 – Present

- Collaborated with group members to ensure efficient progress, allowing us to maximize our limited time
- Devised system for obtaining and selecting abilities which optimized back-end processes for heavy computation
- Created basis for enemy AI to use in all future enemies

Skills

- 8+ years of programming experience
- Proficient in the debugging process across various programming languages
- Fluent in Spanish

Education

Kennesaw State University

- B.S. Computer Game Design & Development, Graduated May 2026

Wheeler Magnet High School

- Graduated May 2022, AP Scholar Award (Physics I/II, Computer Science A)
